

HEALTH	
Improving individual and family health, safety and security.	
<p><u>Problem Statement:</u> Washington County residents’ health and well-being is adversely affected by high-risk behaviors, unhealthy lifestyles and limited access to treatment. <i>Key indicators include: substance use, mental health crises, chronic health conditions</i></p>	
<p><u>Goal Statement:</u> By June 30, 2025, improve the health and well-being of Washington County residents who participate in collaborative, evidence-based programs.</p>	
Strategies:	Performance Measures:
<ol style="list-style-type: none"> 1. Increase access to mental health and substance abuse treatment in the community. 2. Increase access to primary health providers and screening/treatment for chronic health conditions. 3. Increase intervention and education resulting in improved lifestyle decisions. 4. Reduction of stigma associated with mental illness and substance use. 	<ul style="list-style-type: none"> • # of participants receiving substance use and/or mental health treatment • # of participants receiving primary health care • # of participants screened for chronic health conditions • # of participants able to pay for or receive low-cost options for prescriptions • # of participants engaged in multi-session intervention resulting in improved lifestyle decisions • # of Social Worker / Client Interviews conducted • # of children w/emotional, social and behavioral challenges identified and connected to appropriate services. • # of families connected and engaged with supportive services (i.e. wraparound services, Al-Anon, etc.) • # of participants engaged in educational/awareness events related to mental health and/or substance abuse
